

CURRICULUM VITAE

Updated 6/2013

ROBERT C. JERRIS, Ph.D.
DIPLOMATE, AMERICAN BOARD OF MEDICAL MICROBIOLOGY

PERSONAL INFORMATION

OFFICE: **Director, Clinical Microbiology**
Children's Healthcare of Atlanta
1001 Johnson Ferry Road
Atlanta, GA 30342
(404) 785-4543
robert.jerris@choa.org

BIRTHDATE: **August 20, 1953**

BIRTHPLACE: **Buffalo, New York**

ACADEMIC TRAINING:

1981-1983 Postdoctoral Fellowship in Medical and Public Health Laboratory Microbiology
Centers for Disease Control, Atlanta, Georgia.

1981 Doctor of Philosophy Experimental Pathology, Emory University, Atlanta, Georgia

1978 Masters of Medical Science, Clinical Microbiology, Emory University, Atlanta, Georgia.

1975 Bachelor of Science, Microbiology and Medical Technology, Florida State University, Tallahassee, Florida

PROFESSIONAL EXPERIENCE:

4/2004- PRESENT **Director, Clinical Microbiology**
Children's Healthcare of Atlanta, at Egleston and Scottish Rite Hospitals
1001 Johnson Ferry Road
Atlanta, GA 30342

1985-4/2004 **Director, Clinical Microbiology Laboratories**
Department of Pathology
DeKalb Medical Center
2701 N. Decatur Road
Decatur, Georgia 30033
(404) 501-5261

Chairman: Institutional Review Board (1988-2002)
Committees: Pharmacy and Therapeutics
Infection Control
Education

1978-Present	Microbiology Technical Services Clinical Microbiology Consulting
1986-1992	Director, Clinical Laboratory Sciences Program Emory University School of Medicine, Department of Pathology, Atlanta, Georgia
1987-1997	Consultant, Anaerobic Bacteriology Emory University Dental School (PERL) Department of Oral Pathology Atlanta, Georgia
1983-Present	Clinical Associate Professor Emory University School of Medicine, Department of Pathology and Laboratory Medicine Atlanta, GA
1993-1998	Associate Professor, Adjunct School of Medical Technology Georgia State University Atlanta, GA
1992-2009	Board Member, Sterling IRB
1998-Present	Associate Professor, Adjunct , Lecturer College of Health and Human Sciences Georgia State University Atlanta, GA
1984-1985	Laboratory, Clinical Program Director, Community Health Section Laboratory Georgia Department of Human Resources Atlanta, Georgia
1983-1984	Director, Microbiology Laboratories, Gwinnett Hospital System, Gwinnett County, Georgia
1981-1983	Postdoctoral Resident in Medical and Public Health Laboratory Microbiology, CDC, Atlanta, Georgia
1975-1976	Research Assistant, Emory University, Atlanta, Georgia <i>Research involved production of antiserum and evaluation of fluorescent antibody conjugates for rapid identification of anaerobic Bacteroides species.</i>
1973-1975	Technologist, Division of Instructional Research Services, Florida State University, Tallahassee, Florida.

PROFESSIONAL APPOINTMENTS/RECOGNITION:

Lead US Scientist: Implementation of Automated Blood Culturing to Rural Guatemala. Sept 2008. EIP, CDC.

ASM; College of the American Academy of Microbiology; Board Member 2006-2009, 2009-2012

Professional Affairs Board 2012-2015

PRECEPTOR/MENTOR, CO-MENTOR:

Emory Fellows: Patrick Mularoni, MD (2004-2007)-Emergency Medicine
Dolly Sharma, MD (2007- 2010)-Infectious Diseases
Paul Gastanaduoy, MD (2009-2012)- Infectious Diseases
Craig Shapiro, MD (2009-2012)- Infectious Diseases
Ankita Patel, MD (2010-present)- Infectious Diseases
Anita McElroy (2010-present)- Infectious Diseases
Jumi Yi (2011-present)- Infectious Diseases
Lakshmi Sukumaran (2011-present)- Infectious Diseases

Medical Students:
Rachel Perkins (2010-2012)
Lay Har Cheng (2010-2012)

Physician Translational
Researcher: Lilly C. Immergluck, MD (2007-present)-Infectious Diseases

CLSI (NCCLS) Committee on Blood Culture Techniques, 2005-2007. Publication 2007

Lead US Scientist: Assessment of Laboratory Capacity in Rural Thailand for the Ministry of Public Health (Thailand) and the International Emerging Infections Program- Thailand –CDC, 10/03

State of Georgia:
Clinical Microbiology representative and Alternate to the Clinical Laboratory, Blood Bank, and Tissue Bank Advisory Council (1985-Present)

American Society for Microbiology:
1987-1996, Oral Examination Committee, American Board of Medical Microbiologists (ABMM)
1989-1992, Standards and Examination Committee
1993-1996, Standards and Examination Committee
1992- Chairman, Nominations Committee, Division C.
1996 - Chairman, Nominations Committee, Division C
2000-2003-Waksman Foundation Lecturer
2003- Present: Division C- Ask the Experts
2003- Chairman, Nominations Committee Division C
2006-2009 Board Member, College of the American Academy of Microbiology
2009-2012 Board Member, College of the American Academy of Microbiology
2012-2015 Professional Affairs Committee

Georgia State University, Outstanding Service Award, Dept. Med Techn. 1994

Centers for Disease Control: Laboratory Peer Review Committee 2002.

Council Member, American Academy of Microbiology .2006-2012

ASM, Public and Scientific Affairs Board, Committee (2006-present)

State of Georgia: Hospital Acquired Infections Task Force. 2011-2014.

NATIONAL SOCIETIES:

American Society of Microbiology
American Society of Clinical Pathologists
National Registry of Microbiologists

South Eastern Association for Clinical Microbiology
1985 - President;
1984 - President Elect
1980-1984 - Chairman, Finance Committee
1978-1981 - Georgia Area Director
1978 - Georgia Representative (for construction of by-laws and SEACM Constitution)
Sigma Xi – CDC Chapter

PROFESSIONAL REGISTRIES:

Diplomate, American Board of Medical Microbiologists Certificate No. 779
National Registry of Microbiologists RM(AAM) Certificate No. 1537
American Society of Clinical Pathologists (Specialist Microbiology)

LICENSURE:

Clinical Laboratory Director, State of Georgia, No.83624

NATIONAL STUDIES:

Pre - FDA Release *in-vitro* Clinical Trials:

Imipenem
Cefotetan
Norfloxacin
Ampicillin/Sulbactam
Ciprofloxacin
Ticarcillin/clavulanate
Temofloxacin,
Cefipime
Levofloxacin
Trovafoxacin
Synercid
Linezolid

Collaborative National Studies:

Testing of Fastidious Bacterial Pathogens. G.Doern, Ph.D., Worcester, MA,Coordinator.

1988-2003. National Collaborative Study. Susceptibility Testing of *Hemophilus influenzae*, *Streptococcus pneumoniae*, *Moraxella (Branhamella) catarhalis*

1989. Analytab Products, Inc. - Uniscept Designer System, Antimicrobial Susceptibility Testing.

1990-1992. Analytab Products, Inc. - ALADIN, Automated Susceptibility and Identification.

1991-1992. Beta analysis. Becton-Dickinson BACTEC 9240, Fluorimetric, Continuous Monitoring Automated Blood Culture System. Collaborative study.

1996-1997 Abbott Ligase Chain Reaction, Abbott Diagnostics. Molecular amplification: assay performance and workflow analysis.

1997. Becton-Dickinson BACTEC 9050 Automated Blood Culture System. Collaborative study.

1998. Biomerieux-Vitek. Vitek 2 beta analysis

1991. National Surveillance - Sensitivity Profiles. Institute for Microbiology Research. Dr.Clyde Thornsberry, Coordinator. Nashville,TN.

1991-1994. National Collaborative Group, Assessment of Anaerobic Disk Susceptibility Testing.
R.C. Jerris, J. M^cLaughlin, S.D.Allen, A.L. Barry.

1994-1995 (Doern GV. et.al. 1996.) Antimicrobial Resistance of *Streptococcus pneumoniae* Recovered from Outpatients in the United States during the Winter Months of 1994-1995: Results of a National Surveillance Study. Antimicrobial Agents Chemother. 40: 1208-1213.

1996-present. MRL, Thornsberry Surveillance Network. A National Surveillance of Antimicrobial Resistance. Real time antimicrobial data, electronically gathered and accessed.

1996-1997. (Doern et al. 1997) Antibiotic resistance among Clinical Isolates of *Hemophilus influenzae* in the United States and Detection of B-lactamase strains resistant to amoxicillin-clavulanate: Results of a National Multicenter Study. Antimicrob.Agents.Chemother. 41:292-297.

1996-1997. Abbott Ligase Chain Reaction, Abbott Diagnostics. Molecular amplification: assay performance and workflow analysis.

1997. Becton-Dickinson BACTEC 9050 Automated Blood Culture System. Collaborative study.

1997. Surveillance of Antimicrobial Resistance in *Streptococcus pneumoniae*, *Haemophilus influenzae*, and *Moraxella catarrhalis* in the United States in 1996-1997 Respiratory Season. Thornsberry, C et.al. And the Laboratory Investigator Group. Diagn.Micro. Infect. Dis. 29:249-257.

1997. Multicenter Comparison of levofloxacin to respiratory pathogens. Thornsberry Surveillance Network.

1997. Multicenter Surveillance of ESBLs and cefipime susceptibility. Univ. of Iowa.

1997-1998. Surveillance of Antimicrobial Resistance in *Streptococcus pneumoniae*, *Haemophilus influenzae*, and *Moraxella catarrhalis* in the United States. Univ. of Iowa.

1998. Microbiology Reference Laboratories (MRL), Antimicrobial Surveillance, Respiratory Isolates.

1998. Biomerieux-Vitek. Vitek 2 beta analysis

1998, 1999. ISS ESBL Detection in ICU Isolates. Merck.

1999. BioMerieux phase 2 analysis Vitek Two. Automated Identification susceptibility System.

1999. Becton Dickinson Probe- Tec. Workflow, pre-marketing analysis. Molecular Detection of *Chlamydia trachomatis*/*N. gonorrhoea* by strand displacement amplification.

1999-2003: TRUST Study (Tracking Resistance Trends in the U.S.). Ortho-McNeill

2000: BioMerieux Multi-Center phase 2 analysis Vitek 2. Automated Identification susceptibility System

2000-2003: Merck ISS (ICU surveillance study), TRUST study, PROTEKT-US study, The Alexander Study, MRL (antimicrobial resistance surveillance)

2002: Instrument Beta Analysis Projects (pre-FDA release) : BioMerieux Clinical Trial SPCA2 – *Streptococcus pneumoniae* panel. Vitek 2.

2002-2003: CARE Study, Detection of ESBL isolates. Emory University, Rollins School of Public Health.

2003-2004: Becton Dickinson, Phoenix Instrument, Clinical Trial # 02C1-018-PXP2-DEK. Phoenix System for Identification and Susceptibility Testing. Gram Positive Phase.

2003. Daiichi Pharmaceuticals, Mercer School of Pharmacy. Induction of resistance to otic pharmaceutical compounds.

2004-2005: University of Iowa : GRASP (longitudinal study of antimicrobial resistance in respiratory pathogens)

2004-2005: Daichii; Multicenter Study of Selected Antimicrobials Against Targeted Organisms, Including Resistant Strains in US Metropolitan Medical Centers. Protocol PRT#004.

2007-2008: PROTEKT 8 – IV318-18-07, Sanofi Aventis study number: Antimicrobial susceptibility survey among respiratory pathogens and invasive non fastidious Gram negative rods from the PROTEKT multinational surveillance 2008

2007-2008.1 : University of Iowa Collaboration : The RASP Protocol-Tracking Antimicrobial Resistance in Respiratory Pathogens

2005-2008: Centers for Disease Control-Dr.U. Parashar. Epidemiology of and Development of Rotovirus vaccine.

2005-2008: Dr.D. Erdman. Centers for Disease Control-Epidemiology and Diagnosis of Pediatric Respiratory Viral Infections (focus on Human Metapneumovirus).

2005-2006. Thermo-Electron. Clinical Trial Protocol PCL04002. Evaluation of Thermo Electron STEC OIA Assay.

2007-2009. CDC Collaboration. Molecular Detection of Bordetella pertussis: correlation with serological profile.

2007-2009. Center for Disease Control and Prevention Collaborative Study with BRATT Lab to serve as SUBJECT MATTER EXPERT LAB in defining the specificity of biological reagents using RT-PCR for detection of agents of Bioterrorism(collaboration with Dr. Harvey Holmes)

2009-2010. Atlas MRSA and Atlas StaphSR. (pre-FDA release) Becton Dickinson Clinical Trial. Direct Detection of MRSA from Pediatric Blood Culture Bottles.

2008-2009: MedImmune RSV Project: Prevalence of RSV in "Shoulder" months.

2007-2009: The Impact of Inducible Clindamycin Resistance in MRSA Isolates from Pediatric Skin and Soft Tissue Infections. **Dr. RC Jerris**, Dr. Dolly Sharma.

2008-2010 Prevalence of Community-associated MRSA colonization in Healthcare Worker's in a Children's Hospital.Co-PI's: L.Immergluck, **R.Jerris**, S. Ray . APPROVED 6/17/08, project in progress. Data accumulated, paper in progress.

2007-2009: Tiger 2 Study:. Collaborative project with the Cystic Fibrosis Center. Dr. Peter Scott, Zikiya Eaton RN, BSN, MSHSA. IRB study number 08-123

2009- present :Assessing the Public Health Impact of US Rotavirus Vaccination Program through the Emerging Infections Program Network. CO-PIs: L. Immergluck, C. Jefferson, **R.Jerris**. IRB Approved April 2,09.

2009-2012. Tennessee Unknown Encephalitis Study (TUES study), Collaboration with Dr. Andi Shane. Emory IRB approved,

2009. Center for Disease Control and Prevention Collaborative Study with BRATT Lab to serve as SUBJECT MATTER EXPERT LAB in defining the specificity of biological reagents using RT-PCR for detection of agents of Bioterrorism. Respiratory Specimen Procurement phase (collaboration with Dr. Alex Hoffmeister).

2010- 2011. Rotovirus identification by PCR and Epidemiology. P.Gastanaduoy, A Shane, **R Jerris**, C Moe

2010-2011. Clinical impact of tracheal cultures in pediatrics. R Perkins, A Shane, **R Jerris** (Completed and manuscript in progress)

2010- 2011. Refined Epidemiology of Salmonella isolates in neonates and pediatrics. L Cheng, A Shane, **R Jerris** (Study discontinued).

2010-2011. Multi-center study to evaluate diagnostic methods for detection and isolation of *Campylobacter* from stool. CDC, CHOA and 8 State Health Labs.

2010- 2011. Comparative Study on Identification of Bacteria and Time to Detection In Cystic Fibrosis Patients: Conventional methods vs Bruker MALDI Biotyping (BMT). **R Jerris**

2010-2011. Host response and molecular typing of RSV. C. Shapiro, L Anderson, **R. Jerris**, L. Kabrinski, M. Moore.

EDITORIAL REVIEW BOARDS:

Editor: Current Microbiology (1996-2007)

Invited Guest Reviewer

Journal of the American Medical Association
Journal of Clinical Microbiology
American Journal of Tropical Medicine and Hygiene
Diagnostic Microbiology and Infectious Disease

WORKSHOPS and INVITED LECTURES (incomplete):

1985

Basic Skills in Microscopy for Health Care Professionals - Workshop Valdosta, Albany, Waycross, GA.

Practical Microbiology for the 80's - Workshop - Georgia
Department of Human Resources, Atlanta, GA.

Non Automated RAPID Methods for Identification of Common Bacterial
Pathogens - South Eastern Association for Clinical
Microbiology

Contemporary Cost Effective Microbiology - Bacteriology, Mycology, Virology - A Review, Georgia Society
for Medical Technology

1986

Update in Methods in Clinical Microbiology, Columbia, S.C.,
South Carolina Department Health and Education

Blood Cultures, Basic Lab Methods in Clinical Microbiology, Centers for Disease Control

Guidelines for Inspection of Clinical Microbiology Laboratories, Workshop Health Care Finance
Administration, Laboratory Surveyors

How to Cope With The Newer Antibiotics - Lab Aspects - Workshop
Harvard University, Cambridge MA.

Rapid Same-Day Identification of Bacterial Pathogens, Workshop, GA. Department of Human Resources

1987

Rapid Methods for Identification of the Enterobacteriaceae - Workshop, 87 Annual Meeting, American
Society for Microbiology.

Federal Regulations for Licensure in the Clinical Laboratory, S.C. Department of Health and Education
and S.C. Society for Medical Technology.

Introduction to DNA Probes in the Clinical Laboratory, Georgia Society for Medical Technology.

Physician's Office - Testing - Microbiology Products - Workshop, South Eastern Association for Clinical Microbiology.

New Technology in Microbiology - applying Academic Tools, South Eastern Association for Clinical Microbiology

The Microbiology of Body Fluids - Workshop, Ga. State University.

1988

Current Concepts of Antimicrobial Therapy and Laboratory Testing. Mississippi State Society for Medical Technology. Jackson, MS.

Metropolitan Atlanta Microbiology Association. New Techniques in Clinical Microbiology. Atlanta, Ga.

Using the Latest Technology in Clinical Microbiology Application. Georgia Society for Medical Technology. Atlanta, GA.

Tick-borne Disease. GA DHR. Atlanta, GA.

Handling of Infectious Waste in the Hospital Environment. GA Department of Human Resources, State of Georgia Hospital Engineers. Dalton, GA.

1989/1990

Laboratory Aspects of Susceptibility Testing. Merck, Sharpe and Dohme Technical Representatives. Atlanta, GA.

The Beta Analysis on Analytabs's UDS Computer. Annual Meeting, American Society for Microbiology. New Orleans, LA.

Arthropod borne diseases in the Southeast. GA Society for Medical Technology. Atlanta, GA.

TRAINING AND EXPERIENCE DURING TWO-YEAR POSTDOCTORAL RESIDENCY IN MEDICAL AND PUBLIC HEALTH LABORATORY MICROBIOLOGY AT THE CENTERS FOR DISEASE CONTROL

Expertise developed in all areas of medical laboratory microbiology through intensive participation in formal training courses at CDC, bench rotations in CDC specialty laboratories, the Georgia State Public Health Laboratories, Emory University Hospital Laboratories, Grady Memorial Hospital Laboratories, and research activities involving contemporary aspects of clinical microbiology. This residency program is accredited by the American Academy of Microbiology, Committee on Postdoctoral Educational Programs (AAM/CPEP).

I. CDC Training Courses

A. Bacteriology:

1. Laboratory Methods in Anaerobic Bacteriology
2. Laboratory Methods in Clinical Bacteriology
3. Laboratory Methods in Enteric Bacteriology
4. Laboratory Methods in Medical Bacteriology
5. Laboratory Methods in Special Medical Bacteriology
6. Principles and Applications of Antimicrobial Chemotherapy
7. Laboratory Methods for Detecting Sexually Transmitted Diseases
8. Darkfield Microscopy for Identifying Treponema pallidum
9. Laboratory Diagnosis of Chlamydia trachomatis Infections
10. Laboratory Methods for Detection of Legionnaires' Disease Agents

11. Laboratory Diagnosis of Mycoplasma Infections

- B. Mycology:
 - 1. Histopathology of Mycotic Infections
 - 2. Laboratory Methods in General Medical Mycology
 - 3. Identification of Pathogenic Fungal Isolates by Immunodiffusion
 - 4. Serodiagnosis of Mycotic Infections
- C. Parasitology:
 - 1. Laboratory Methods in Medical Parasitology
 - Part 1. Intestinal Parasites
 - Part 2. Blood Parasites
- D. Virology:
 - 1. Basic Laboratory Methods in Virology
 - 2. Laboratory Diagnosis of Viral Diseases
 - 3. Laboratory Methods for Diagnosing Respiratory Virus Infections
 - 4. Laboratory Methods for Detection of Herpesvirus Infections
 - 5. Immunofluorescence Methods for Virology
- E. Immunology/Serology:
 - 1. Principles and Techniques for Enzyme Immunoassay
 - 2. Principles of Complement Fixation
 - 3. Quantitation and Functional Assay of T and B Cells
- F. Pathology/Infectious Diseases:
 - 1. Introduction to Man and Disease
 - Part 1. Histology
 - Part 2. Pathology
 - 2. Infectious Diseases, Emory University Medical School
- G. Epidemiology/Management:
 - 1. EIS Course in Applied Epidemiology and Biostatistics
 - 2. Laboratory Safety Management
 - 3. Laboratory Manpower Development Seminars - CDC
 - 4. Health and Medical Laboratory management
 - 5. Developing and Evaluating Short-term Laboratory Training Courses
 - 6. Epidemiology and Biostatistics (Homestudy)
- H. Molecular Methods-Polymerase chain reaction

II. Bench Experience

- A. Bacteriology:
 - Antimicrobial susceptibility testing
 - Isolation and identification of anaerobic bacteria
 - Isolation and identification of special medical bacteria
- B. Mycology:
 - Isolation and identification of yeast and filamentous fungi
 - Serodiagnosis of mycotic infections
 - Histopathology of Mycotic infections
- C. Virology:
 - General isolation and serology
 - Perinatal viral serology
 - Respiratory Virus isolation and identification
 - Exanthematous diseases of viral etiology

- D. Serology of parasitic diseases
- E. Management workload recording in clinical microbiology
- F. Mycobacteriology
 General methods for transport, detection, isolation, identification
- G. Molecular amplification methods
